## General Comment

We need strong limits on pollution, which is why I support TMDL legislation that is NOT "watered down" -- pun intended. Dilution is not the solution to pollution, less pollution is.

In our house, if you mess it up you must clean it up. Not just walk away. Not blame someone else. Not dump the mess in the neighbor's yard. Not expect someone else to take care of it. If my kid can understand that this is the right thing to do, we adults should too -- businesses, government, farmers, homeowners, everyone.

It's time to hold everyone accountable, by law. Voluntary compliance hasn't worked, so it's time to put it into law and then enforce it.
